## Summary

Motivated Software Developer with 1.2+ year of experience in full-stack development, specializing in web technologies and agile methodologies, stacks such as MERN and MEAN, including AWS and Firebase incorporating tools like Git/GitHub, Jira, Confluence and Notion, and frameworks like Next.js, Nest.js and Ionic with Capacitor. Seeking on-site or remote opportunities to contribute to innovative projects while continuously expanding skills in software engineering.

## Education

**Dr. APJ Abdul Kalam Technical University**      **June 2020 - June 2024**  
Civil Engineering      Bachelor of Technology

## Experience

**Shreeva Soft-Tech Innovations**      **October 2023 - September 2024**  
Full Stack Developer      Prayagraj, UP  
🔗 <https://shreeva.in>

- Developed an integrated ecosystem for company initiatives, resulting in a 120% productivity increase.
- Implemented Agile and Scrum methodologies, enhancing development efficiency by 80%.
- Utilized AngularJS, AWS, Go, and cross-platform frameworks like Ionic with Capacitor
- Worked with MVC architecture and service model patterns.

**Uttar Pradesh Housing & Development Board**      **August 2023 - September 2023**  
Database Engineer Intern      Lucknow, UP  
🔗 <https://upavp.in>

- Automated database performance optimization tasks, improving query response time by 35%.
- Enhanced data modeling techniques, increasing data security by 25%.
- Collaborated on high-performance applications for the Government of Uttar Pradesh.

**Pixel Business**      **March 2022 - May 2022**  
UI/UX Developer Intern      Remote, IN  
🔗 <https://pixelbusiness.in>

- Created responsive interfaces, reducing page reload time by 40%.
- Improved user satisfaction rates from 42% to 67% through enhanced UX design.
- Developed cross-platform compatible UIs using React.js, HTML, CSS, and SCSS.

## Projects

**JobNexus**      **September 2024**  
🔗 [Visit here...](#)

- Developed a Next.js-based job aggregator app, integrating multiple job board APIs and reducing manual search time by 70%, with tracking response rates.
- Implemented Google Sheets API and Gmail API integration, automating the storage and mailing of over 100 job listings per week.
- Engineered a responsive UI with React, resulting in a efficient system.

Next.js, React.js, Google Sheets API, Gmail API, Nodemailer, API Development

**RaagBeats**      **August 2023**  
🔗 [Visit here...](#)

- Developed a web API to fetch data from Spotify, improving music streaming efficiency by 40%.
- Designed an intuitive UI/UX, increasing user engagement by 180%.
- Technologies: Vite, React, SCSS, Tailwind CSS, React Hooks, Redux.

Native API's, SCSS, Tailwind CSS, React Hooks, Redux, React JS
